

FISHING RECORDS¹

The following pages schedule current Fishing Records and include both Official NZ Fishing Records and Association Light Tackle Records. World Records for catches in NZ waters are recognised as NZ Records, unless exceeded by a NZ one. Also included are the records administered by the NZBGFC.

For applicable Rules and Regulations and how to make Record Applications refer to previous Sections in this Manual

The Association recognises almost all species as eligible for records. The NZBGFC administer NZ Records for those generally thought of as Game Fish species. The NZACA will issue “Association Records” where appropriate for these “big game species” to its Members.

The Association no longer issues, except for some species, “Association Records” as the system of “NZ Records” has now taken the place of these. However existing Association Records are shown for historical purposes and remain relevant until surpassed by a NZ Record.

Each month there is sent out to Member Clubs updates of Records. It is recommended that Members may like to insert in this Section of their Manuals copies of these updates for those species, which are of the most interest to them. This will provide the latest information on those species and make the Manual a more current reference to records.

See your Club Secretary or contact the Association Secretary for further information regarding these monthly updates.

These Record Pages will be updated in full at appropriate times throughout each year. Web pages will be updated regularly.

FISHING RECORDS

As at 1st. July 2013

Note : Only shown are records held - where there is a vacant record this vacancy is not shown. For full and monthly updates of particular species refer to Club or NZACA Secretary.

Where Assoc' Records are different to NZ Records these are shown in *italics*

Divisions :- M=Mens, L=Ladies
 JM = Junior Boys, JF = Junior Girls (11 - 16)
 SM = Smallfry Boys, SF = Smallfry Girls (up to 10)
 O=Open(Assoc' only)
Sections :- B=Boat, S=Shore
Class :- Line Breaking Strain
Weight :- kgw = World Record
